100%

Satisfaction
Guaranteed

It's our commitment to you and to upholding expert standards.

Hello-

Times of crisis can provide some of the most important opportunities to deepen trust and commitment with employees in ways not only to ensure their well-being, but also position greater business success when the crisis is over. This is critical for your culture and business acumen.

Elite has worked with many essential businesses to keep their facilities cleaned and disinfected with our *affordable Vital Oxide fogging treatment* so that they can remain open and operate in a safe and healthy environment.

As you work towards reopening your business to your employees and/or the public, here are a few things to ask yourself:

Would my employees feel safer knowing that I took extra steps to ensure their safety?

Have I taken the necessary steps to clean and disinfect my facility so that I minimize the risk of one of my employees getting Covid-19?

Do I have hand sanitizer readily available?

Can I provide employees with a mask?

Elite is prepared to assist you in any or all of these areas, to not only prepare your facility for opening, but to give your employees and the public confidence that your top priority is their health and well-being.

Sincerely,

Cheryl Ecton
CEO

About our CEO

WBENC

WOMEN'S BUSINESS ENTERPRISE
NATIONAL COUNCIL

JOIN FORCES. SUCCEED TOGETHER.

Elite, a certified, woman-owned business headquartered in Wilmington, Delaware, servicing the New England, Mid-Atlantic, Mid-West and Southern Eastern regions. Established in 1989 by Cheryl Ecton, Elite has focused on two enduring principles, quality and responsiveness.

“At Elite, we were founded and operate our company by the core values of integrity, respect, quality, safety, teamwork and responsiveness---this is our commitment.”

*Cheryl Ecton
Chairwoman & CEO*

At Elite our mission is three-fold. We guarantee customer satisfaction through consistent quality at the highest service levels to deliver customer value. We continuously strive to improve our people, processes and technology through best-in-class industry innovation, customer feedback, workforce development, and evaluation to drive consistent business results to our customers. We deliver sustainability through tangible and measurable environmentally conscious decision-making.

PROACTIVE VITAL OXIDE TREATMENT PACKAGES

Vital Oxide is an EPA-registered hospital disinfectant cleaner, mold killer, and super effective odor eliminator. Its formula contains a unique form of stabilized chlorine dioxide that is very effective at killing bacteria, viruses, and mold yet non-corrosive to treated articles and gentle enough to handle without causing skin irritation.

Vital Oxide has been approved by the EPA (for use against SARS-CoV-2, the coronavirus that causes the Coronavirus Disease 2019 (Covid-19)). Vital Oxide meets the EPA's emerging pathogen requirements for viruses showing efficacy against envelope and non-envelope virus, both large and small.

- US EPA Reg. No 82972-1 in all 50 states and Puerto Rico
- NSF rated (D-2) No Rinse Required on Food Contact Surfaces at full strength
- Hypo allergenic - Allergen reducing formula
- pH balanced
- Odorless, with no offensive odor or taste
- Non-corrosive safe on treated articles like carpeting, fabrics, natural stones, plastics
- Non-irritating to skin no glove required
